AmCham Mandate Leader Masterclass Programme

Strengthening Corporate Strategy

Kindly Sponsored by

Programme Overview

Over the past number of years, we have seen a rapid evolution in both the business and geo-political environments. Amid this uncertainty, the stability provided by the Irish operations of US multinationals is now more important than ever in supporting an organisations overall corporate strategy.

AmCham recognises the unique set of challenges facing the leaders of US multinationals in Ireland and wanted to **create a space for business leaders to discuss their shared challenges and find solutions.**

The Mandate Leader Masterclass is a bespoke programme specifically designed to support those in leadership roles in the multinational sector in Ireland. **This programme equips participants with the tools they need to take their organisations, and their roles within their organisations, to the next level.**

Participants will benefit from the **extensive AmCham network with modules delivered in a trusted environment by senior figures from AmCham's members and stakeholders.**

The programme will be structured around a series of case studies that:

- Illustrate success and failure;
- Are applicable across sectors;
- Enable discussion regarding the key strategic challenges facing mandate leaders, and the skills and attributes they need to possess to address these.

What questions will be addressed by the case study leaders?

- How have the company's leaders developed its presence and impact in Ireland?
- How do they challenge the status quo, push the boundaries, and leverage their own internal capabilities and resources?
- How do they "work the politics" in their global enterprises?
